In this jungle, the perfection of our veggies was sporadic. Dad's squash were an illuminating example. He saved squash seeds from year to year, mixing in new seed when necessary. The various varieties crossbred and, in a few years, he had results worthy of mutant extras in a Martian-invasion movie.

Our neighbors sniffed at our garden's appearance, dropping plenty of blunt comments. We children — like all children, were easily embarrassed, and fretted over why we had to have such a big, messy garden. But, by the end of summer, the garden, largely under its own management, produced wagonloads of vegetables that, when canned by Mom, lasted all winter. The lapses in nurturing were overcome by numbers for, if you plant plenty of seeds, enough will survive and grow.

There was a side benefit of the big-garden approach. If you have a huge pile of vegetables of mixed quality, some will be no good but most will be serviceable and some, perhaps challenged to be all that they can be by their hard upbringing, will actually be excellent. These Darwinian beauties, put up in Mason jars, won blue ribbons by the fistful at the county fair, greatly annoying the neighbors, whose hard work and hours of tending had produced lesser results.

The death of the author and journalist Gitta Sereny earlier this month drew some strangely critical notices. One piece even tried to blame her for a current cultural tendency to claim people are not responsible for their own actions. Though this was a dissenting view, there was a more general seam of criticism which ran through many obituaries. The claim was, essentially, that Sereny grew too uncomfortably close to her subjects and even ended up on occasions sympathising with them or excusing them.

It is probably on the basis of her biography of Albert Speer that most of the criticism has come. It is true that Sereny got close to Speer and liked him. It is also true that some revelations that have come out since her book was published in 1995 (and doubtless more still to come) suggest more complicity and guilt on Speer's part than either he acknowledged or Sereny knew. But the resulting book remains a masterpiece, and even Speer's caginess on certain subjects is more revealing in Sereny's work than in others.

Some of the criticism of Sereny has either ignored or diminished her real achievement which was, to my mind, almost unequalled and never exceeded. Through all her books Sereny did something which distinguished not only her career, but her profession. She walked right up to the lip-edge of evil, stared straight at it, did everything anyone could to understand it and then walked back to the rest of us and told us about it.

- B/ would not change
- C/ may have undergone considerable change
- D/ did not matter for the final outcome

8. Sereny may have been accused of ...

- A/ too little consideration for victims
- B/ excessive love of vivid details
- C/ a liking for revisionist history
- D/ lacking in a wider cultural perspective

9. The author thinks that Albert Speer...

- A/ may have been misjudged by the public
- B/ may have been misleading Sereny
- C/ will be a subject of controversy among historians
- D/ should be treated with caution

10. The author describes Sereny as...

- A/ rightly sceptical
- B/ somehow cruel
- C/ excessively humane
- D/ truly realistic

Around noon the following day I walked to the jail looking for Sheriff Coley. Under the pretext of asking him questions about the Kaysssellaw investigation, I planned to see as many of the inmates as possible. His secretary informed me, rather rudely, that he was in a meeting, and that was fine with me.

Two prisoners were 1/ _____ the front offices. Outside, two 2/ _____ were pulling 3/ _____ from a flower bed. I walked around the block and 4/ _____ the jail I saw a small 5/ _____ area with a basketball goal. 6/ _____ prisoners were loitering under the 7/ _____ of a small oak tree. On the east 8/ _____ of the jail I saw three prisoners standing in a window, behind 9/ _____, gazing down at me. Thirteen inmates in all. Thirteen orange 10/ _____.

He confirmed what Baggy 15/ _____ suspected – Danny Padgitt was living the good 16/ _____ in an air-conditioned 17/ _____ and eating whatever he wanted. He dressed 18/ _____ he wished, played 19/ _____ with the Sheriff himself, and made phone calls all day 20/ _____.

The next edition of the *Times* 21/ _____ much to solidify my 22/ _____ as a hard-charging, fearless, twenty-three-year-old fool. On the 23/ _____ page was a huge photo of Danny Padgitt being 24/ _____ into the courthouse for his bail 25/ _____. He was handcuffed and wore street 26/ _____. He was also 27/ _____ the camera one of his patented go-to-hell 28/ _____. Just above it was the massive headline: 29/ _____ DENIED FOR DANNY PADGITT. The story was lengthy and detailed.

Alongside was another story, almost as long and much more scandalous. Quoting unnamed sources, I described at 30/ _____ the conditions of Mr. Padgitt's incarceration.

I mentioned every possible perk he was getting, including personal time with Sheriff Coley over the checkerboard. I talked about his food and diet, color television, unlimited phone use. Everything I could possibly verify. Then I compared this with how the other twenty-one inmates were living.
