10 pt

1. The people who would really benefit from an end to the ratings are college presidents and deans. They get pestered by alumni, donors, parents: Why isn't our school higher? If you're 87th and a traditional rival is 56th, it's embarrassing. _____ don't rank high. Some seem further down the list of colleges than their old-line reputations imply.
A/ As a rule, donors become reluctant if they
B/ And seldom do they show complacency to schools that
C/ Unsurprisingly, many complaining schools
D/ The fact is, on some criteria even good schools
2. Lawson and Mace talk of "later-born disadvantage", and a "deficit" in parental care. But I doubt if many first-borns would share the conviction that _____. Most would gladly swap the extra violin lessons and help with their viking longboat model for a dose of the benign neglect enjoyed by their younger siblings.
A/ they have drawn the long straw
B/ the said disadvantage can harm
C/ living on the deficit sucks
D/ attention can be reciprocated
3. Interviewing war criminals, Gitta learned and communicated that people who do unimaginable things are not – as we often like to pretend, in order to console ourselves – 'monsters' of a different species, but human beings _____ in ways which can be understood though never excused.
A/ tormenting and tormented
B/ made warped and wicked
C/ cultivating their humanity
D/ exculpating their deeds
4. My father even had a brilliantly hare-brained scheme for his collection of used deodorants. _____ the final 10 per cent of the deodorant because of its plastic casing, he decided to microwave 10 used ones and then pour the molten residue, via a system of funnels, into an empty casing – thereby creating one new, reconstituted deodorant.
A/ Incensed that you could never reach
B/ He felt cheated on account of
C/ Cursing the manufacturer for
D/ Alternatively to suing producers for
5. Marica knew her obsession was damaging her children's wellbeing, but couldn't stop, often returning from the shops with "four or five carrier bags of second-hand stuff a day." The hoarding had evidently been especially hard on Maud. "All the way through my life I've felt that my mum's stuff was more important than me," she reflected quietly. Any Freudian analysts watching _____ when Maud told us she now presents a Channel 4 property series that helps people to find their ideal homes. In contrast to Marica, Maud "vacuums everything, sofas, chairs, even the kitchen worktops."
A/ must have received the 'aha' insight
B/ could easily attribute the role of the habit
C/ the show even momentarily shrugged
D/ will have been scribbling in their notebooks

6. What's so shameful about this campaign against the rankings is its anti-intellectualism. Much information _____. The proper response to evidence that you dislike or dispute is to supplement or discredit it with better evidence. The wrong response is to suppress it.
- A/ is in some way incomplete or imperfect B/ finds it difficult to get through
C/ will of necessity satisfy only few D/ confirms what most people abhor
7. Early on, the eldest of my five children spotted that it was a drag being the first past every milestone. He _____ he didn't play ball. He loathed school and resisted all organised activity – we are talking here about a child who managed to "forget" to sit one of his GCSEs – until my husband and I accepted that he was going to do what he wanted, regardless of what we had dreamed up for him.
- A/ convinced himself he was no good at sport:
B/ developed a cunning way to deal with it:
C/ bore with difficulty our encouragement:
D/ he reacted as many in his position would:
8. The most shocking failure of individual responsibility is the decline of marriage and rise of nonmarital births. Brookings data show that _____ as in 1970, poverty would be reduced by more than a quarter. And yet young women who have a high school degree or less education increasingly do not marry, and about 40 percent of their babies are born outside marriage, quadrupling the chance that they and their babies will live in poverty.
- A/ if the sources of wealth were still the same
B/ were the public as sympathetic to young women
C/ were today's handouts to couples as high
D/ if the same share of adults were married today
9. And, as the subsequent history of the country has proved, the so-called freedom fighters turned out to have been fighting not so much for freedom as for power. They were power-fighters rather than freedom-fighters, _____ they instituted nothing that any political philosopher would recognise as a regime of freedom. The only sense in which the new regime was freer than the old had been was freedom from the old oppressor.
- A/ but for a narrow ring of conspirators
B/ since, notwithstanding their leadership,
C/ for once they were installed in power,
D/ and positioning themselves as such,
10. As sceptics will doubtless point out, this is a small number of images. Furthermore, Dr Farid knew before performing the analysis what results he expected. _____ that it is early days for his methodology. He hopes to study many more paintings. Although the computations involved are not trivial (they take about ten hours on a relatively powerful cluster of four Linux workstations) the limiting factor is getting sufficiently-high-resolution digital scans of paintings from museums.
- A/ While he himself is willing to argue
B/ But he is the first to acknowledge
C/ The outcome is far from assured as
D/ Most art historians have their doubts since
